OUR STORY

OUR STORY

In 2009, Logo Designer was established in Egypt with the primary objective of making a significant impact. Our team of professionals effectively manages and executes multi-channel campaigns, providing comprehensive reports and valuable insights to drive future strategies for our esteemed clients.

Recognizing that every brand has a unique story to share, one that fosters a deeper connection with its customers and resonates on a profound level, we deliver compelling content across various channels, including social media and websites. Our aim is to assist our clients in reaching their target audience, increasing awareness of their products and services.

OUR MISSION

At Logo Designer, our mission is to help our clients enhance their sales, improve online visibility, and achieve their desired goals.

OUR VISION

We aspire to become the most effective and profitable marketing agency worldwide. We accomplish this by maximizing our clients' return on investment, ensuring relevance, and consistently increasing profits.

MISSION & VISION

A silhouette of a person in a suit, carrying a briefcase and a bag, standing on a rooftop or balcony overlooking a city skyline at sunset. The scene is bathed in a warm, golden light, with the sun low on the horizon, creating a hazy, atmospheric background. The person is facing away from the camera, looking out over the city.

SERVICE

FULL-SERVICE DIGITAL MARKETING AGENCY:

As a full-service digital marketing agency, we offer tailored campaigns to help you reach your target audience effectively. Our comprehensive range of services includes:

- 1 - BRANDING & CORPORATE IDENTITY.
- 2 - MARKET DEVELOPMENT.
- 3 - WEBSITE & MOBILE APP DEVELOPMENT.
- 4 - DIGITAL MARKETING & SOCIAL MEDIA.
- 5 - PR & EVENTS MANAGEMENT.
- 6 - MEDIA PRODUCTION.
- 7 - DIGITAL MARKETING.

A hand holding a glowing lightbulb with a brain inside, surrounded by other lightbulbs. The background is a warm, golden-yellow color with a soft glow. The lightbulb in the center is the most prominent, with a glowing brain inside it. It is held by a hand, and there are other lightbulbs hanging around it, some of which are dimmer and out of focus. The overall mood is one of inspiration and innovation.

WHAT CAN YOU EXPECT?

In today's saturated online marketplace, it can be challenging to stand out. However, with the right strategy, you can enhance your visibility and attract more customers to your business. This is where Logo Designer comes into play.

The Parenting Entity

Introduction

The modern world has many changes that have taken place over the years. One of the most critical and challenging aspects is parenting. The task of a parent has changed significantly from the past to now. Parents today are under much more pressure than their parents when they had children in the 1970s and 1980s. Still, they also need to balance it with their own needs, which sometimes leaves them feeling overwhelmed as they try to figure out how best to raise their child.

Who are we?

Edu Square is the first platform in the Middle East that provides a complete parent's journey for your child and focuses on all pillars considering the global norms and new trends worldwide.

Through our educational modules, in-person workshops, social media platforms, and more - we offer everything related to a child.

Edu Square is a learning platform mainly created for parents interested in developing their children's skills and learning experience.

We focus on 4 main pillars that shape the child's life (educational, physical, social-emotional, and personal).

Edu Square empowers parents through transformational digital content to balance, connect and sustain their children's personal needs, developing them into happy adults.

Edu Square assists parents by guiding them further into the world of technology. They show you how to take advantage of it so that you can give your children every chance for success in their future!

Why do we exist?

Parents are often told to be their child's best friend, but what does that mean? What is the responsibility of a parent? How do we ensure our children grow up with all they need to succeed? Edu Square answers these questions and more.

Edu Square is a "Dynamic" space created to help parents communicate with professional experts and different educational entities.

Edu Square taps into a range of resources and best practices.

Edu Square helps parents to be the best version of themselves in raising their children.

Edu Square offers training on how to turn the negative impact of technology in the lives of children into a positive, efficient, and productive skill that helps their future to be successful.

Edu Square makes parenting easy and rewarding.

Edu Square aims to help parents think about and formulate technology to improve how their children interact with peers via technology.

Our Mission

Edu square's Mission is to maximize the educational value by connecting children, parents, and educational entities to empower parents with the latest, stimulating, and sophisticated digital content. High profile experts in the field of education, in addition to international schools' solution highlighting competency-based educational and development programs that cover the needs of each country.

Our Vision

Edu square promotes educational values through its vision to outline and be recognized as a prominent platform appealing to parents in the MENA region by 2025 as it bridges the gap between the international education systems and the global parenting trends to improve the Children's learning experience empowers parents with world-class and comprehensive strategies, tools, and techniques.

BEST OF PARENTING

If a challenging task is more straightforward, it is possible.

- A 100% personalized experience breaking the status quo to build a better future.
- Gain the support of our customized, trusted content, and turn your parenting into a fun task.
- An engineered system for perfect parenting.

Brand Message

Parents need tools that will help them address any issues they face along the way while providing support for those things they have already mastered. Edu Square offers this through digital content that walks parents through a parenting journey from infancy to adulthood, including transformational experiences.

Edu Square offers a complete childhood system to help today's parents balance these responsibilities while developing solid relationships with their children.

Search Engine Optimization

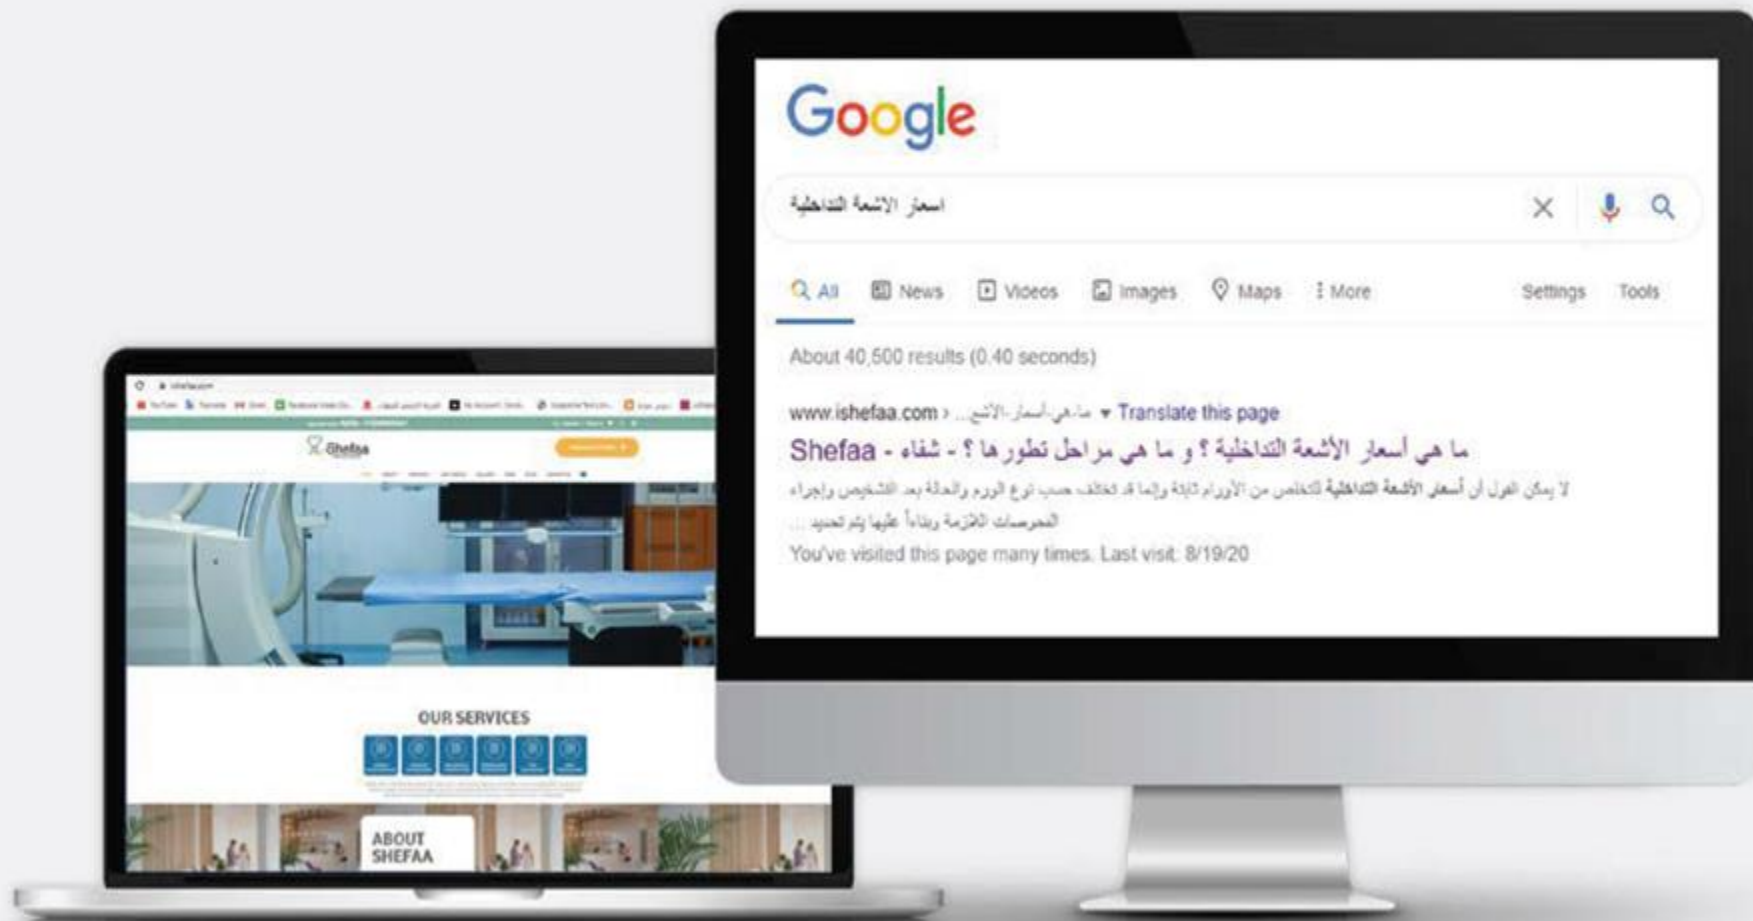

Search engine optimization (SEO) is the practice of improving the visibility of the placement of a website on search engines. This is done by optimizing the website's content, structure, and design to make it more attractive to search engines. SEO is a key factor in determining where your site places in search results. If you neglect to include a description, some search engines will automatically generate one for you. While there are many techniques that people use when optimizing a website, the most important ones are:

Meta Description ★★★★★

Your meta description was found and implemented in the correct format! The meta description is important in communicating to search engines what a webpage is about. The meta description serves this purpose as well as many others. The meta description is a factor in determining where your site places in search results. If you neglect to include a description, some search engines will automatically generate one for you. In most cases, that is typically not a scenario that you should rely on. Writing your own brief meta description is a good practice.
